### Description

Sandy M410 is an exciting open heifer that will be a great show prospect for a lucky junior, then become a valuable addition to your herd as a front pasture cow. The genetics are here being sired by SAM whose semen is rare and expensive, and out of our Sandy 4150 Angus donor that is a maternal sister to the legendary Sandy 804 and Sandy 905. Don't miss your opportunity on sale day to add this halfblood female combining exceptional phenotype with proven and valuable genetics.
