Offering Ewe

Tag 2116

DOB Yearling

Sire Log Dog

Dam Swamp Donkey

Breed Reg Hampshire

Comments This ewe's mother and Enigma's mother are twin sisters. So we have started off with proven genetics to back this gal. This genetic combo is all inclusive with tons of pattern along with muscle. 2116 is tremendous bodied and really elevated up front with a big square rack and loin edge. Breed this female to one of those really furry bucks and I bet you get your investment back in this ewe in one crop. Her pedigree speaks volumes!
