### **Description**

Our first offering out of Game Changer as far as rams. We didn't end up offering any last year because we wanted to grow them out and see what we ended up with. And oh my are we pleased. This guy right here has not missed a lick. He is a lot thicker made buck over all than what we are used to and this is what makes him more appealing. Gotta love the bone on this guy and his dark points. His genetics speak for themselves. His momma we purchased at the National and this was her 1st baby. A lot of old genetics and some very familiar and proven ones. He was our backup plan for Game Changer but wanted to sell a good one and here he is! He is a big boy. We stuck him out at 41 x 40 a month ago. He has the foundation to support his size.
