Description

This heifer comes from the heart of the Winegardner-Klingaman programs' genetic base. With over 15% chi blood, she will always produce a high chi female no matter what you breed her to. Her presence and structure are unmatched. Just a May baby, we look forward to seeing how she continues to develop and compete in a younger division. It should be noted, her disposition is best suited for a more experienced showman who has the time to give her a little extra love.
