**Description**

Yep your reading that right, original Who Da Man's out of one of the best cows we have ever been involved with. We are very fortunate that the Frye family purchased and campaigned this great cow and we are now partners. It's hard to imagine a better mating in our mind, while all three of these females bring a little something different to the world. No matter which one is for you they are all flat good. Not to mention, these are full sisters to the Underwood female that won NAILE last year as a big. The generating potential in these Lucys could be unrivaled.
