Species Cattle

Description

We sold Yasmine as a heifer calf to at the time Delhawk/Happ where she topped the MSU in 2011 at \$15,000. She went on to produce many national winners and top sellers for Tom. We donated a yasmine daughter for the HYFA sale lot in Denver where she commanded \$80,000. Her progeny continues to be generators in herds across the country. She produces power with look and has been a foundation female for MF. Don't wait, this will be some of the last chances to get a hold of genetics like this. A great genetic opportunity here, get it while it lasts. We are selling 1 package of 4 for each lot and is currently stored at GGS. Guarantee 1 60-day pregnancy.
